CHAPTER-I

DRAFT OF COMMON ZONAL REGULATIONS

(1) Title, commencement and application-(1) These regulations may be called the Common Zonal Regulations for all Local Planning Areas, 2017.

(2) They shall come into force from the date of their publication in the official Gazette.

(3) These Regulations shall apply to all planning Authorities notwithstanding anything contained in the zoning regulations made or in force in their planning area.

CHAPTER-II

Common Zonal Regulations

1. INTRODUCTION-

1.1 Zoning- In order to promote public health, safety, convenience and the general social welfare of the community, it is necessary to apply reasonable limitation on the development of land and buildings. This is to ensure that most appropriate, economical and healthy development of the city takes place in accordance with the land use plans, and its continued maintenance over the years. For this purpose, the city is divided into a number of use zones, such as residential, commercial, industrial, public and semi-public etc. Each zone has its own regulations.

1.2 Purpose of Zoning. -The primary purpose of zoning is to segregate uses that are incompatible. Zoning protects residential areas from the undesired invasions of commercial and industrial uses and at the same time promotes the orderly development of industrial and commercial areas, by suitable regulations on spacing of buildings to provide adequate light, air, protection from fire, etc. Based on the road width, other land uses are permitted for the land uses specified in the Master Plan, to promote mixed land use. It prevents overcrowding in buildings and land and thus ensures adequate facilities and services.

1.3 Zoning not retrospective - Zoning is not retrospective. It does not prohibit the uses of land and buildings that are lawfully established prior to the coming into effect of these zonal regulations. If these uses are contrary to the newly proposed uses, they are termed as non-conforming uses, and are gradually eliminated over years without inflicting unreasonable hardship upon the property owner. However, if approval has been accorded by the Authority or the Government as per the provisions of the Act or these Regulations, for change of use from that of the current Master Plan to that of the Previous Master Plan, it shall be treated as a conforming use.

1.4 Zonal Regulation- The Zonal Regulations and their enforcement ensure proper land use and development control and form an integral part of the Master plan for the Local Planning Area. It also ensures solutions to problems of developments under local conditions.

1.5 Establishment of zones and zonal maps-

1.5.1. The Local Planning area is divided into use zones such as residential, commercial, industrial etc., as shown in the Master Plan maps.

1.5.2 Zonal boundaries and interpretations of zonal regulations- **1.5.2.a.** Where there is uncertainty with regard to the boundary of the zones in the approved Master Plan, the decision of the Authority in this regard shall be final.

1.5.2.b. For any doubt that may arise in interpretation of the provisions of the Zonal Regulations and in case of any typographical errors the Director of Town and Country Planning (DTCP) shall be consulted by the authority and the decision of DTCP shall be final.

1.5.3 Zonal regulations prescribed.-

Note:

1. All the uses permitted under **Table – 1, 2, 3, 4 and 5** are subject to space standards as given in **Table – 6**
2. For change of land use under section 14-A of KTCP Act, to Non-Residential use, the minimum proposed road width shall be 12m.
3. If the building is occupied by any uses other than the allowable uses as per sanctioned plan, then revised sanction has to be obtained as per the provisions of these regulations and the compounding and penal provisions of the rules framed under Section 76 F and Section 76FFF respectively shall also apply.
4. Proposed road width shall be as in the Master Plan or as proposed by the local authority. If proposed width is not specified for any existing road (i.e. Roads which are not proposed for widening) and, then the existing width shall be considered as proposed width for applying the provisions of the above tables.
5. If such existing roads fall between two different categorised road width of the above tables, then the lower categorised road width shall be considered as existing road width for reading the tables above.
6. Every proposed road shall meet another road of equal or higher width. Required changes in the width of roads have to be proposed by the Authority to ensure this principle of road hierarchy.
7. Parks, playgrounds and open spaces may be permitted in all other land use zones as permissible use.
8. Industrial uses will be subject to compliance of conditions stated in **Table-12**

3.1. 10 a. Application of land use -Land use categories prescribed in the above tables shall be applied for all properties abutting the roads of corresponding widths mentioned in the Tables.

3.1. 10 b. Land Use indicated for road side to be applicable for entire property -the proposed land use indicated towards the road side of a property shall be the land use for the entire property without identifying it for different uses by measuring as per the scale of the maps

If more than one land use is indicated towards the road side of a property, any one of such land use or mixed-use buildings shall be permitted in the property. Anyway, this is not applicable if the land use proposed adjoining to the roadside property is reserved for Parks and Open space, Agricultural (outside the conurbation area), Public and Semi-public and roads.

3.1. 10 c. Different uses permitted in different floors- Different uses permitted in a given zone may be allowed in different floors of the building. In such cases, the regulations applicable to the use of the ground floor of the building shall apply to the entire building. If there is mixed land use in the ground floor, the predominant use among them shall be considered as the use of the ground floor.

3.1. 10 d. Land use in prohibited areas- In case of prohibited area (i.e., 100m radius around the monument) even if the land use is designated in the proposals, the regulations for the prohibited area zone prevails (refer areas of special control).

3.2 GENERAL NOTES - (1) In case any private property is included within the boundary of any existing property of Industrial, Public and Semi Public, Public utility, Park and Open Spaces, Transportation and Communication and if the owner can establish the ownership of such property vests with him/her, then the land use adjoining the Public and Semi-Public building may be assigned to such private property by the Authority.

(2) Before permitting any uses permissible under special circumstances, the authority shall publish the proposals calling for public objections in at least two leading local daily newspapers giving stipulated time of fifteen days. The objections received within the stipulated period shall be placed before the authority and the reasons for accepting/rejecting the objections shall be recorded in the proceedings based on which the authority may take appropriate decision.

(3) The Authority may permit relocation of park and open spaces marked in private properties in the Master Plan, which are not used as public park and open spaces, within the neighborhood of 500M, by the owners of such private properties, if such relocation proposal, according to the Authority, is an equally good or better option. In such cases of relocation, the owners of the private property earmarked as park and open spaces shall handover the same to the Authority free of cost. Such relocation may be permitted only once within the plan period of the Master Plan.

Alternatively, if the land owner surrenders 50% of the land earmarked as park and open space free of cost to the Authority, he may use the remaining 50% of land for any other use mentioned for adjacent properties in the Master Plan. No T.D.R shall be available for the land surrendered to the Authority. However, the minimum extent of land surrendered as mentioned above shall be not less than 1000M². The above provision shall also be available if the land earmarked to park and open space belong to multiple owners and the owners jointly agree to surrender 50% of the land for park and open space.

If the owner intends to develop a layout as per the rules of Section 17 of the KTCP Act, in the remaining 50% of the land, he shall not be required to reserve/relinquish any portion towards park and open space and civic amenities. The owner shall also be permitted to propose a road (of width not more than the highest width of any road proposed in the layout) in the portion surrendered to the Authority for park and open space (50% of the total extent of land) to access the sites proposed in the layout in the remaining 50% of the land.

The land use for the alternate areas mentioned above shall automatically be considered as permitted land use as per these Regulations

(4) If lands which were falling in residential or commercial land use zones in the earlier Master Plans have been proposed as public and semi-public or park and open space or agriculture zones in the present Master Plan, if the applicant prefers to have the land use as in the earlier Master Plan, the Authority shall consider the same if the revision is not done for any specific purpose by the Authority or the Government. All other previous approvals including NA conversion accorded by the Government shall be treated as confirming use irrespective of the classification made in this Master Plan.

(5) Any development in low lying areas identified by the Planning Authority shall be permitted in accordance with the drainage plan prepared by the Planning Authority for its jurisdiction, based on the study of natural drainage pattern.

(6) In case of any error in the demarcation of roads in the Master Plan and the actual location of roads, the same shall be rectified after verification by the Authority. The neighboring land use shall be considered for the properties abutting such roads in the Master Plan.

(7) No objection Certificate from the Deputy Commissioner of the district shall be obtained before permitting buildings for places of worship vide Government Order No.Kan.E.65: MuAaBi:2001, Dt. 24-12-2001.

(8) In cases where notes 4 and 6, are applicable, as soon as the Authority receives an application along with all relevant documents from the owner to make the necessary correction, the Authority shall take necessary action as per Section 14A or Section 69 of KTCP Act, 1961, as the case may be and complete the process within 3 months of the application including obtaining

government approval, wherever required, failing which the change of land use requested by the applicant shall be deemed to have been permitted

(9) If the construction of a building has not commenced at the time of coming into force of these regulations, even though sanctioning for construction was availed under any previous provisions of the Zonal Regulations, such construction shall commence only after getting fresh sanction under these regulations.

(10) In CRZ areas, the uses permissible under the CRZ regulations shall be applicable irrespective of the land use prescribed in the Master Plan.

4.0 MEANS OF ACCESS:

4.1 Minimum width of approach road for permitting construction -No construction may be permitted on plots abutting roads having less than 6m width unless the portion of the plot required for road widening up to 6m width or to any other required width prescribed in the Master Plan or by the Local Authority is surrendered free of cost without claiming any compensation including DR.

In Hilly areas in exceptional cases, G + 1 floors of two dwelling units totally up to 150m² of floor area irrespective of the size of the plot, may be permitted on narrow lanes of less than 1.5m width where road widening up to 6m is not possible. In such cases the minimum means of access shall be of 3.0m.

4.2 Minimum width of Means of Access.- The means of access to the plot which would be other than 'through public roads and street' (dead end road without any cross roads) , shall not be of more than 30 m length from the public road or street and if the width of such access is of 3.5 m, 4.5m and 6m, the F.A.R. and height of buildings coming up in such plots shall be regulated according to the width of the public road or street for buildings of height upto G+2 floors, upto G+4 floors and above G+4 floors respectively. If the length of means of access exceeds 30 m, F.A.R. and height of the building abutting such means of access shall be regulated with reference to the width of such means of access.

4.3 Restriction for 3m wide lanes as approach roads (for Hilly Areas only) -The lanes proposed to be widened upto 3m width only shall be treated as approach roads for plots having approach only from such lanes and such lanes shall not be treated as approach roads for plots abutting other roads of higher widths for which FAR is considered. Only side and rear setbacks shall be considered from the boundary of the plot abutting such lanes. However, the portion of the plot, if required for widening the lane to 3m, shall be surrendered to the Authority/ Local Body free of cost and the side and rear setbacks shall be considered beyond such lane widening line.

4.4 Width of road including the width of Service road-In case of roads having service roads in addition to the main roads the width of road shall be aggregate width of service roads and main roads for determining F.A.R. and height of the building.

4.5 Varying width of existing road- In case of roads with varying widths, the existing road width shall be the average width considered by taking measurements from the edge of the property upto the end of the road. Such road should lead to another road having the same or higher width. However, at any point on that road, the width should not be less than 75% of the width considered as existing width.

4.6 Centerline of the road- The center line of the road fixed by the Authority/local Authority shall be considered as the center of the road. The Authority/ local Authority shall fix the center line of all roads having proposed width of 12m and above. If the center line is not fixed by the Authority/ local Authority, the center of the existing road shall be considered as the center of the road.

4.7 Relinquishment of portion of plot for road widening -In case of plots facing the road proposed for widening, the portion of the plot required for road widening as indicated in the Master Plan or as required by the local authority, shall be handed over to the local authority free of cost by a relinquishment deed by the owner of the land, without claiming any compensation from the local authority, including DR, before sanction is accorded to the plan.

4.8 Relinquishment of additional portion of plot at intersection of roads and for bus bay lanes- If additional portion of the abutting plot is required by the Authority or Local Authority for providing free left lanes or splaying of road intersections or for providing additional bus bay lanes, such portion of the plot shall be relinquished to the Authority or the Local Authority, as the case may be, before sanctioning building licence to such plots. The setback for the plot shall be considered from the proposed road line only and not from the boundary of the additional portion of the plot surrendered for the development of road intersection or bus bays, as mentioned in this clause.

4.9 Relinquishment of portion of plot for road widening in case of existing buildings.- Where upper floors are permitted over the existing buildings which are sanctioned prior to the coming into force of these Zonal Regulations which are facing the roads proposed for widening in the Master Plan, the upper floors shall be permitted only after the applicant surrenders the portion of the plot and building, if required for road widening, free of cost by a relinquishment deed, without claiming any compensation from the local authority.

In case of alterations to existing buildings is sanctioned by the Local Authority, the applicant shall surrender the portion of the plot required for road widening to the Local Authority, free of cost,

by a Relinquishment Deed, without claiming any compensation from the Local Authority, before sanction is accorded.

5. FLOOR AREA RATIO- FAR for all Buildings except Industrial buildings shall be in accordance with **Table No- 7 and 8**. For Industrial buildings, FAR shall be as per **Table-12** for all Local Planning Areas.

Table – 7

Floor Area Ratio -For all LOCAL PLANNING AREAs other than those having Corporation Cities

Sl. No	Plot Area (Sq.m)	Existing/ Proposed Road width (m)	Permissible FAR

Table - 8

Floor Area Ratio -For all LOCAL PLANNING AREAs having Corporation Cities

Sl. No	Plot Area (Sq.m)	Existing/ Proposed Road width (m)	Permissible FAR	Premium FAR	Total
1.	Upto 2000	6.0	1.4	0.6	2.0
2.	2000 - 4000	7.5	1.5	1.0	2.5
3.	Above 4000	9.0	1.6	1.4	3.0
4.		12.0	1.7	1.7	3.4
5.		15.0	1.8	1.8	3.6
6.		18.0	1.9	1.9	3.8
7.		24.0	2.0	2.0	4.0

Note:

1. Additional FAR availed by amalgamation of properties (as per **Table - 9**) shall be permitted over the total FAR prescribed in the **Table - 7 and 8**, if the proposed road width is 12m and above.
2. Proposed road width shall be as in the Master Plan or as proposed by the local authority. If proposed width is not specified for any existing road (i.e. Roads which are not proposed for widening), then the existing width shall be considered as proposed width for applying the provisions of the above tables.
3. If the proposed width of road abutting a plot is lesser than the requisite road width against the plot area as per **Table -7 & 8**, the permissible FAR for that plot shall be calculated as follows:

Permissible FAR applicable for the plot for the proposed road width x
Proposed width of the road abutting the plot

Permissible FAR= -----
Requisite proposed road width applicable to the plot area

Eg: 1) Plot size of 4010 m²

- 2) Proposed width of the road abutting the plot is 6m
- 3) Requisite proposed road width applicable to the plot area is 9 m and Permissible FAR for the plot abutting proposed road width of 6m is 1.4 as per **Table 8**

$$1.4 \times 6m$$

Then the Permissible FAR= ----- = 0.93

$$9m$$

4. The condition of **Note no.3** shall not be applicable if the proposed road width abutting the plot is equal or more than the requisite road width against a plot area as per **Table 8**. In such cases the permissible FAR and premium FAR shall be based on the road width abutting the plot only.

5. The FAR of the individual plots in an approved layout shall be governed by the proposed width of the approach road (widest among the approach roads in case of multiple approach roads) to the layout or the road abutting the plot, whichever is lesser.

6. FAR shall be calculated for the entire plot area without deducting the portion surrendered for road widening, if DR or any other form of compensation is not claimed / availed for the portion of the plot surrendered for road widening.

7. In Industrial zone of Master Plan, which is designated or reserved Industrial Area, Residential and Commercial use shall be permitted only as ancillary use to the Industrial use, or as prescribed in the Rules framed under Section 17 of KTCP Act or as prescribed in the Rules of the Competent Authority governing such Industrial Area.

5.1. Areas excluded from FAR computation - The following constructions are excluded from FAR computation:

1. Entrance lobby in ground floor for apartment building.
2. Area for the additional width of corridor over and above the minimum prescribed width in the ZR.
3. Area reserved for services such as electrical substation/panel room, generator, pump room, AC plant room, solid waste management, fire control room, security/CCTV room etc.
4. Refuge areas provided in high rise buildings as per fire safety norms
5. Public toilets provided in non-residential buildings.
6. Building management/society room with a maximum size of 40sqm.
7. Staircase / staircase room.
8. Architectural features which are not usable for living or other purposes.
9. Chimneys.
10. Garbage shaft.
11. Ducts.
12. Parking areas including driveways and ramps and any children's play area, jogging track provided along with the parking areas.
13. Swimming pools, change room and toilets attached to swimming pools constructed in open yard or in any floor for common use.
14. Overhead tanks.
15. Escalators.
16. Lift wells and lift machine room.
17. Watch man's cubicle not exceeding 5.0 m² areas.
18. Sewerage Treatment Plant as specified by KSPCB and pump rooms.
19. Balcony slabs not covered upto a height of 7.5m shall be considered as terraces.

Note: All the above areas (except 19), excluded from FAR computation shall be only for the common use of the occupants and shall not be sold/leased. This condition has to be specifically mentioned in the registered Deed of Declaration of the Apartment Owners Association.

5.2 FAR of plot abutting two or more roads - If a plot abuts two or more roads of different widths, then the FAR of the building shall be regulated according to the width of the road from which main motorable access to the plot is proposed.

5.3 The Fee for Premium FAR.- The fee for Premium FAR (Premium FAR charges) shall be calculated on permissible floor area @ 50% of the land cost. Land cost shall be as per the market value. In case of mixed use (commercial and residential) in a building, the market value of land for

commercial land use and residential land use shall be considered proportionate to these land uses in the building.

E.g.: Extent of plot – 2000m² abutting road of proposed width of 12m

Permissible FAR = 1.7

Premium FAR = 1.7

Cost of land (market value) = Rs.4000 / m²

$$\text{Cost / m}^2 \text{ of permissible floor area} = \frac{\begin{array}{c} \text{Cost of land / m}^2 \\ \text{-----} \\ \text{Permissible FAR} \\ 4000 \end{array}}{1.7} = \text{Rs.2352.94}$$

Premium FAR charges / m² = 50% of cost/m² of permissible floor area
= Rs.2352.94 / 2 = Rs.1176.47/m² (Say Rs.1177.00 / m²)

Premium F.A.R. claimed – 1.7

Therefore, Premium Floor Area = (2000 x 1.7) = 3400.00 m²

Therefore, total Premium FAR charges (for 3400m²) = 3400m² x Rs.1177/m² = Rs.40,01,800.00

5.4 Condition for utilising premium FAR

5.4.1 The Premium FAR charges from the plots falling within the jurisdiction shall be collected by such ULB and utilised exclusively for the widening works of the roads within its jurisdiction and such charges from the plots falling outside the jurisdiction of such ULB shall be collected by the Authority and utilised exclusively for the widening works of the roads, as per the following procedure.

(a) If the amount collected from the plots abutting a particular road is sufficient for the widening works of that road, then such amount shall be used for widening of such roads only.

(b) If the amount collected from the plots are not sufficient for the widening works of abutting roads, then such amounts collected along with the amount collected over and above the amount required to undertake the widening works of roads mentioned in (a) above, may be used for widening works of other roads in the following priority, with the commitment to provide adequate funds for widening works of such roads (from which the Premium FAR charges collected are diverted), whenever they are required to be undertaken.

(i) Widening of important roads connecting the road from where the amount is diverted.

(ii) Widening of other roads parallel or alternate in the neighbourhood of the road from where the amount is diverted.

(iii) All important intersections of the important roads connecting the road from where the amount is diverted.

(c) The amount collected from plots abutting roads that would be widened by other agencies such as PWD, NHAI, etc., can be used for widening of roads connecting Airport, Sea Port, Railway Stations, and Major Bus Terminal or for widening of roads mentioned in (b) above.

(d) The road widening may be undertaken in phases to achieve the full width in the Master Plan. The phase to which presently the road has to be widened shall be decided by the ULB or Authority, as the case may be based on the existing traffic density and studies of traffic impact due to the building coming upon that road and the transit traffic on that road

The roads having proposed width of 12m and below have to be widened in single phase to its full proposed width, if Premium FAR charges have to be used for such widening works.

(e) The amount collected from the properties abutting roads that are not proposed to be further widened from its present width, within the next 5 years, based on the analysis done as mentioned in (d) above or from the roads which are widened to its full proposed width, shall be utilised for executing the works specified in (b) above.

(f) The road widening works to be undertaken using Premium FAR charges are as follows;

(i) Earthwork cutting and filling for road widening.

(ii) Construction of compound wall/retaining wall and reconstruction of buildings demolished (partly or fully), if any, for road widening.

- (iii) Shifting of existing utilities such as water supply, UGD, power supply, telecommunication etc.
- (iv) Construction of storm water drains and footpaths.
- (v) Construction of Bus bays and reconstruction of Bus shelters, if any.
- (vi) Reconnecting cross roads which get disconnected due to the widening of the road using Premium FAR amount.
- (vii) All works related to widening and development of intersections (including development of free left lanes).
- (viii) Any activity that would enhance the carrying capacity of the road
- (ix) Any other works related to road widening, excluding repairs and maintenance works, as approved by the ULB or the Authority, as the case may be, undertaking the road widening works.

5.4.2 The amount collected towards the Premium FAR charges of each road shall be maintained separately, both in the prescribed format and spatial Map, with details of Premium FAR charges calculation based on the Market value from the time such charges have been collected by the ULB & the Authority.

5.4.3 The ULB& the Authority shall deposit the Premium FAR charges collected along with the interest accrued in a separate account and spend the amount towards the road widening works mentioned in (f) above, from the same account only.

The annual account statement shall be sent to the Government.

5.4.4 Premium FAR shall be permitted to be utilised in LPAs where DR is generated as per the rules framed under Section 14B of KTCP Act, only if DR /TDR of minimum 10% and maximum 50% of the Premium FAR proposed to be utilised, as decided by the Authority time to time (based on the demand and supply of DR/TDR), is utilised over and above the allowable FAR prescribed in Table-8

5.5 Amalgamation of plots - Additional Permissible FAR by amalgamating 2 or more Original plots shall be provided as mentioned in **Table -9**. The amalgamated properties shall be treated as a single property for the application of these regulations.

TABLE -9
Additional FAR for amalgamation of plots

Sl. No.	Total extent after amalgamating plots	Additional permissible F.A.R. for proposed road widths of		
		12 m	18 m	24 m and above
1.	upto 2000 m ²	0.3	0.3	0.3
2.	Above 2000 m ² upto 4000 m ²	0.3	0.3	0.4
3.	Above 4000 m ²	0.3	0.4	0.5

5.5.1 Additional F.A.R. as mentioned in **Table -9** shall be considered for amalgamated properties belonging to different owners only.

5.5.2 Properties subdivided after coming into force of these Regulations which are re amalgamated shall not be eligible for the additional FAR mentioned in **Table -9**.

5.5.3 Any no. of properties may be amalgamated and developed as a single property. However, the additional F.A.R. mentioned in **Table -9** shall be available for the total extent of such properties amalgamated, wherein the extent of the smallest property amalgamated shall not be less than 25% the extent of the biggest plot.

5.5.4 Properties having different land uses may be amalgamated into single property. However, if park and open spaces, roads, public and semi-public or agricultural zones outside the conurbation area are part of the amalgamated property then the uses permitted in these zones only shall be developed in such portions of the property by actual measuring with respect to Master Plan drawings.

If any portion of the amalgamated properties has been relinquished free of cost for road widening (without claiming monetary compensation or DR) then the regulations applicable for the land use of the plot abutting the road shall be applicable for the entire amalgamated property (except for the land uses for the portions falling under agricultural zone outside the conurbation area, park and open spaces, roads, public and semi-public) and in other cases of amalgamation, the regulations applicable for the lower land use among the amalgamated plots shall only be permitted.

5.5.5 Any of the individual plot which was part of the Amalgamated plot which has claimed additional FAR as per **Table -9**, shall not be permitted for approval as individual plot unless the proportionate additional FAR claimed for such individual plot is cancelled / withdrawn.

5.5.6 Additional permissible FAR shall be given only for properties amalgamated after the date of approval of these regulations.

5.5.7 Additional FAR for Amalgamation of plots does not apply for Amalgamation of sites falling in approved layout.

5.5.8 The plots falling in unauthorized developments shall be considered for amalgamation only if such plots fulfill the requirements of these regulations as well as that of the rules framed under Section 17 of the Act, after amalgamation.

6. SET BACKS- Setback all-round the building as prescribed in these regulations shall be provided for all floors of the building.

6.1 Criteria for Front, Side and Rear Setbacks- Front setback is essentially with regard to the road width and height of the building and side and rear setbacks are with reference to the height of the building as prescribed in **Table 10 and 11**.

6.2 Front Setback from Road widening line- Front setback should be provided in the remaining plot after deducting area for road widening as proposed in the Master Plan or as proposed by the ULB. If the road widening is not applicable to the plot, the front setback shall be provided from the Front boundary of the plot.

6.3 Front Setback from Frontage of plot- Front setbacks prescribed shall be considered from the frontage of the plot abutting the road only and side and rear setbacks prescribed shall be considered from all other boundaries of the plot.

6.4 No projection beyond Building Line- No portion of the building (including the constructions permitted in **clause 6.12**) shall project, either below the ground or above the ground beyond the building line.

6.5 Front side for corner plots- In the case of corner plots, both the sides facing the road shall be treated as front side and regulations applied accordingly.

6.6 Front side of plot facing roads on more than one side- In case of plot facing roads on more than one side of the plot, the sides facing roads from which approach is provided to the plot shall only be treated as front and other sides shall be treated as sides and the setbacks be applied accordingly and FAR should be computed based on the road width which is considered as front.

6.7 Relaxation in setback for construction of buildings demolished during road widening- When the road widening work is undertaken by the Authority/Local Authority to a width equal to or less than that prescribed in the Master plan and if any building has to be partly or fully demolished for the road widening, the reconstruction of the remaining portion of the building may be permitted abutting the road widening line without providing front setbacks. However, such reconstructed building shall not have plinth area more than that of the original plinth area of the building and shall be reconstructed only upto the ground and first floor. In case the owner intends to construct upper floors to such buildings, permission shall be granted only if the portion of the building constructed in the front setback area is demolished. This relaxation shall not be available if the owner of the building is proposing to construct a new building as per the provisions of these regulations. This relaxation shall be permitted only during the period of widening work of the particular road is undertaken by the Authority / Local Authority and shall not be available in other situations. The above-mentioned relaxation shall be available only if no compensation including DR is availed for the portion of the building demolished. The provision of this clause shall be decided by the Authority on a case to case basis. 6.11 Setbacks in case of more than one building in a plot- In case of more than one building proposed on a single plot, the set-backs shall be applied with respect to the height of the individual buildings or with respect to the road width as per Table 11 or Table 10 respectively,

whichever is higher subject to Minimum drive way requirements of the taller building, wherever required, being satisfied.

6.12 Constructions permitted within the setback area

6.12.1. The following constructions shall be permitted within the setback area without affecting the required driveway around the building as prescribed in these regulation:

- o) Car parking in basement structures.

6.12.2 For non-high-rise Buildings items a, b, c, d,e, f, g, h and k may be permitted abutting the building with 1.0m setback from the boundary.

6.12.3 In the above constructions, permanent structures shall be permitted in the front set back only upto the building line prescribed in **Table-10**.

6.13. Exemptions/Projections in setbacks:

6.13.1 Every open space provided either interior or exterior shall be kept free from any erection thereon except as provided herein and shall be open to the sky and no weather shade or cornice roof more than 0.75m wide or 1/3rd of open space whichever is less shall over hang or project over the said open space.

6.13.2 A portico/porch may be permitted in the ground floor within the setback. No access is permitted to the top of the portico for using it as a sit out. The portico when allowed shall have a clear open space of one meter from the boundary of the property and incase of high-rise buildings, such portico should have a minimum clear height of 5.0m and a vehicle passage width of 6.0m, if such portico/porch projects into the mandatory driveway of 6.0m.
